LiquidFiles Secure Transfer Service

LiquidFiles is a file transfer service that helps ensure the security and confidentiality of all documents provided to George & Bell Consulting. The service works by ensuring that all confidential documents are transmitted in encrypted form and that the recipient of any document is verified before allowed access.

Receiving Documents

This guide will walk you through receiving a document securely from a George & Bell representative. This is achieved through a service called LiquidFiles.

A recent LiquidFiles update has changed how accessing a document works. Rather than signing in, you'll now be requested to enter in a Secure Token (password). More information on this change can be found below.

Instructions

1. After secure documents have been sent to you via the LiquidFiles service, you will receive the following email message:

Please note the sender of this message will be noreply@georgeandbell.com.
