

# Adding an Email Account (iOS)

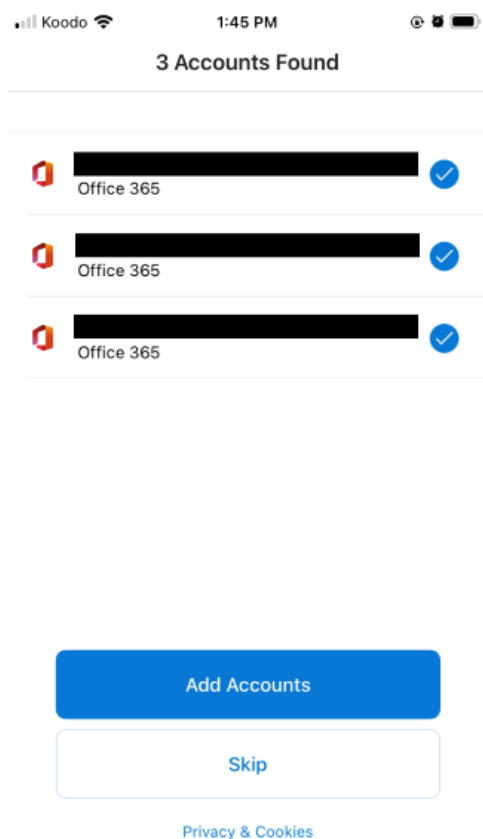

This guide will walk you through setting up the Outlook for iOS app on Apple iPhones.

## Install Required Apps

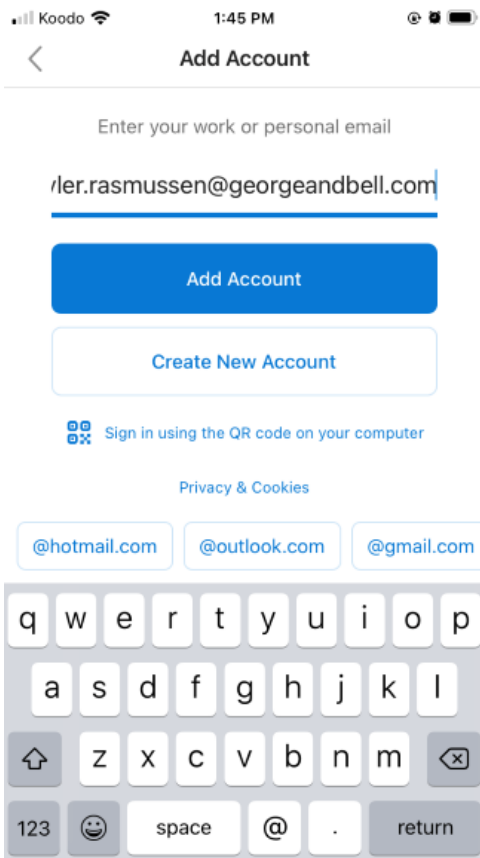

Install the [Microsoft Outlook for iOS](#) from Apple's App Store.

## Setting up Your Account

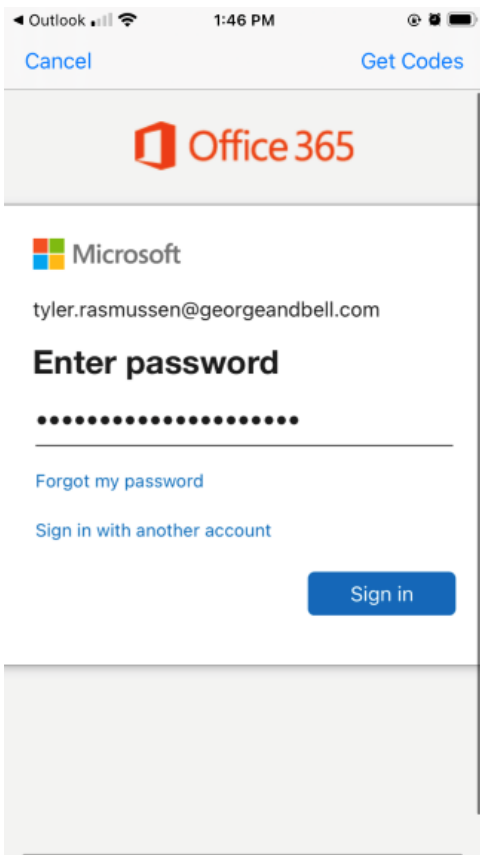

Please open the **Microsoft Outlook** app on your phone. If you've installed the app before, it may ask if you wish to add a previous email account. Select the accounts you wish to add or press **Skip** if the email account is not listed.

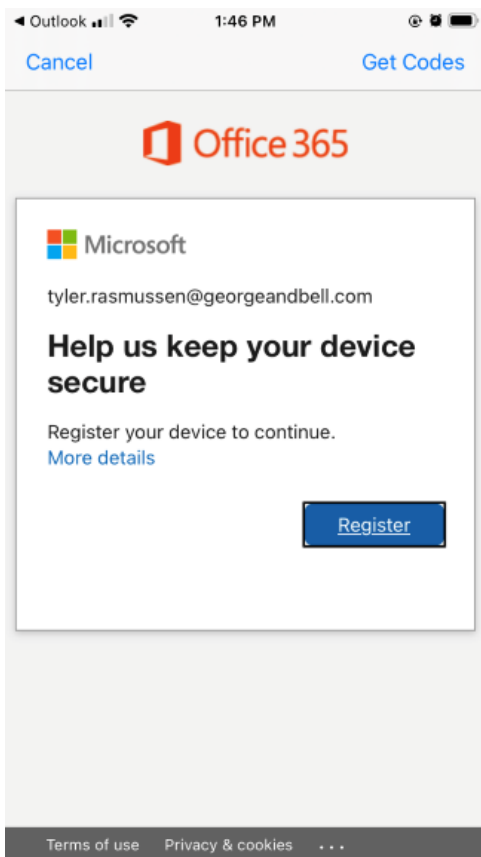

Enter your email address and select **Add Account**.

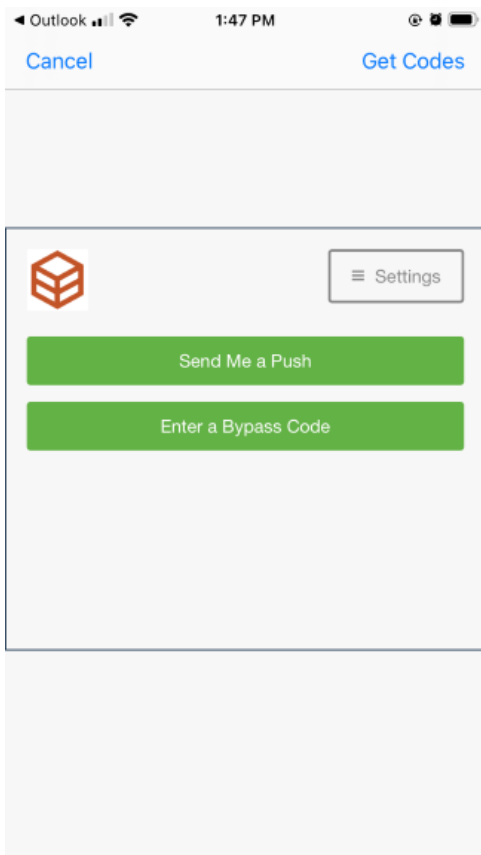

Enter your domain password and select **Sign In**.

Select **Register**.

Complete the requested Duo Authentication Request. Select **Send me a Push** to start the process.

If you have another work email account to add, select **Add** and enter in the requested information. Otherwise select **Maybe Later**.

## Add Another Account
